

# Vocational Rehabilitation Transition

The Utah State Office of Rehabilitation provides Transition Services to eligible students with disabilities as they transition from school to adult life. Our goal is to provide students with a smooth transition, holistic team approach, and services that are necessary and reasonable to help increase their independence, prepare for, obtain, and maintain employment.

Activities are designed to help students learn more about their disability, how to overcome barriers to getting and keeping a job, and ways to be more self-reliant. These services may include:

VR Counseling and Guidance

Medical/Psychological Restoration

IEP and 504 Planning

Job Development and Placement

Supported Employment

Work Adjustment and Life Skills Training

Employer Supports and Accommodations

Assistive Technology

Training and Education
